

## ✓ Fuel sound decision making

Make informed decisions using trusted, timely, high-quality data, enabling you to capitalize on opportunities, reduce wasted effort and resources, and drive business improvement.

## ✓ Foster better synergy between HR, IT, and other departments

Improve interdepartmental data collection and maintenance, break down silos, and trust that data sourced from different teams is reliable. This fosters organization-wide confidence and productivity.

# Key features that support data accuracy include:

### HR data quality index:

Rectify data maintenance pain points with a comprehensive index that indicates your organization's data quality and consistency based on a set of pre-defined business rules, such as unoccupied positions, records, and weight.

### HR data quality dashboards:

Identify areas with data quality issues and fix errors with ease using intuitive pre-configured or customized dashboard layouts.

### Search function & audit log:

Gain real-time visibility into existing errors and access the information needed to take corrective action via robust search functionality and exportable audit logs.

### Data validation rules:

Automate error detection based on pre-defined personnel (PA) and organizational (OM) business rules.

## About Nakisa

Nakisa empowers companies to thrive in a fast-changing world with a flexible, scalable, cloud-based platform for organizational design and lease accounting that makes managing global business operations simple. Our easy-to-use, enterprise-grade software solutions, Nakisa Hanelly and Nakisa Lease Administration, provide visibility and analytics for global enterprises allowing users to unlock real-time insights and make faster, more informed business decisions.
